EXCELLENCE**

**NURTURING
FUTURE LEADERS**

**FACULTY OF
BEHAVIOURAL SCIENCES**

Why Choose Us?

- Preventive and Curative Psychology:** Promoting preventive mental health care in society, nation and world.
- Comprehensive and Interdisciplinary Curriculum:** Programs designed to offer an extensive understanding of diversified fields of psychology, such as, Sports, Cyber, Environmental, Military, Health, AI Interface with Psychology and Indigenous Positive Psychology, and Cognitive sciences with interdisciplinary integration.
- Experienced Faculty:** Highly qualified faculty members and professionals with expertise in their respective fields, bridging academics and practical knowledge.
- Research Excellence:** Opportunities to engage in pioneering research in areas such as mental health, cognitive sciences, literature studies, cultural studies, and interdisciplinary topics.
- Global Opportunities:** Collaborations with international universities, global exposure through conferences, and access to study abroad programs.
- Hands-on Learning:** Practical exposure through internships, workshops, therapy labs, creative writing exercises, and interdisciplinary projects.
- Career Development Support:** Dedicated career services to assist students in securing placements in diverse sectors, including mental health, education, media, and corporate environments.
- Holistic Student Development:** Programs aimed at fostering leadership, communication, emotional intelligence, and entrepreneurial skills.
- Inter-disciplinary Focus:** A unique blend of psychology, cognitive sciences, arts, and liberal studies, encouraging creativity and critical thinking.
- Cultural and Social Engagement:** Opportunities to participate in fests, literary events, outreach programs, and community service projects for overall growth.
- Mental Health Services:** Prepare the students for roles like counsellors, mental health practitioners, or rehabilitation specialists.
- RCI-Accredited Programs:** Clinical training aligned with national standards and regulatory requirements.
- Rekhi Centre of Excellence for the Science of Happiness.**
- SGT Medical College, Hospital & Research Institute** for Training and Learning for Clinical Psychology students.

Cognitive Science Lab

Tools and techniques:

- Electroencephalography
- Psycho-feedback
- Biofeedback
